ASC Engineered Solutions™ offers our distribution partners e-Commerce solutions at no additional charge and with no contract required.

We recognize the challenges distributors face and are dedicated to making your job easier through our online services: Electronic Data Interchange (EDI), Vendor Managed Inventory (VMI), and Connect Portal. We strive for supply chain excellence everyday.

**Benefits for your business**
- Increase profitability with optimum stocking levels
- Cut transaction costs
- Reduce manual entry errors with accurate ordering
- Improve service levels
- Fewer emergency purchases
- On demand pricing and availability

ASC delivers: more choices, ease of doing business, and dependable availability. That what makes us not just a supplier, but a key partner for your success.
Electronic Data Interchange (EDI)

Order products quickly and easily by setting up an EDI partnership with us today. Once the EDI connection is established, your orders will be processed automatically and you’re able to streamline your business support functions. We handle various types of transactions, including but not limited to:

- Product Activity Data (852)
- Price Sales Catalog (832)
- Purchase Order (850)
- Advanced Shipping Notice (856)
- Invoice (810)
- Remittance Advice/Payment (820)
- Functional Acknowledgment (997)

Connect Portal

The ASC Connect Portal is available to all distributor partners at no additional cost. Our Connect Portal provides access to all the information you need prior to placing an order right at your fingertips. This means the power to plan and quote in real-time, anytime.

Benefits to registering for a connect portal account:

- More efficient and accurate ordering
- Higher turn rates
- Warehouse space maximization
- Reduced inventory stock outs
- Reduced processing costs
- Improved service level

Vendor Managed Inventory (VMI)

Vendor Managed Inventory (VMI): an electronic technology-based solution between a wholesaler and a vendor that utilizes an automated system to cross-analyze data from both parties in order to determine a customer's optimum level of inventory and maintain that level. Distributor partner benefits:

- More efficient and accurate ordering
- Higher turn rates
- Warehouse space maximization
- Reduced inventory stock outs
- Reduced processing costs
- Improved service level

Vendor Managed Inventory (VMI)

Vendor Managed Inventory (VMI) is an electronic technology-based solution between a wholesaler and a vendor that utilizes an automated system to cross-analyze data from both parties in order to determine a customer's optimum level of inventory and maintain that level. Distributor partner benefits:

- More efficient and accurate ordering
