# Coated Products

## ASC Engineered Solutions can coat any product we manufacture.

ASC Engineered Solutions coated products are designed to protect metal from corrosive conditions commonly found in the oil and gas industry and other industries where corrosion is a problem.

Our coatings have been field tested and used successfully and effectively for years in the oil & gas industry. The coatings can be applied to all types of metal and all grades of pipe, forged steel, malleable iron, cast iron and ductile iron. ASC stocks two primary coatings: **Scotchkote 134** and **Corvel 1660**, both of which are a fusion-bonded epoxy type of coating. Anvil fittings are ISO approved and the Corvel 1660 is applied using NACE standards #1.

**Scotchkote 134** is resistant to wastewater, hydrocarbons, harsh chemicals, sea water, acids and other chemicals.

- Scotchkote 134 has been tested and certified to ANSI/NSF Standard 61, Drinking Water System Components.
- Scotchkote 134 meets the requirements of AWWA Standard C213 and C550.

**Corvel 1660** is designed for elevated temperatures and pressures in drill pipe, production tubing, valves and fittings.

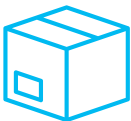

- When applied along with EP-10 primer Corvel is also resistant to H<sub>2</sub>S, CO<sub>2</sub>, CH<sub>4</sub> and petroleum distillates.

specially designed to protect the inside diameter of tubular goods in applications such as fittings, valves, pipe, OCTG and drill pipe. Our coatings are resistant to brine, saltwater, acids, H<sub>2</sub>S, CO<sub>2</sub>, drilling fluids and chemicals, as well as all other types of corrosives found in piping applications.

Anvil Coated Products are ideal for a range of applications including natural gas, petroleum, waste water and sewage, refineries, petrochemical plants, power plants, paper mills, fire protection installations and any other industry or application where corrosion is an issue.

Anvil Coated Products are

## “Often imitated but never duplicated”

All orders shipped within 24 to 48 hours.

Special requests: product can be coated and shipped within 24 hours.

# ASC prides itself in the fact that we were the first manufacturer to offer a coated product to the industry.

## The difference Between us and other coated products

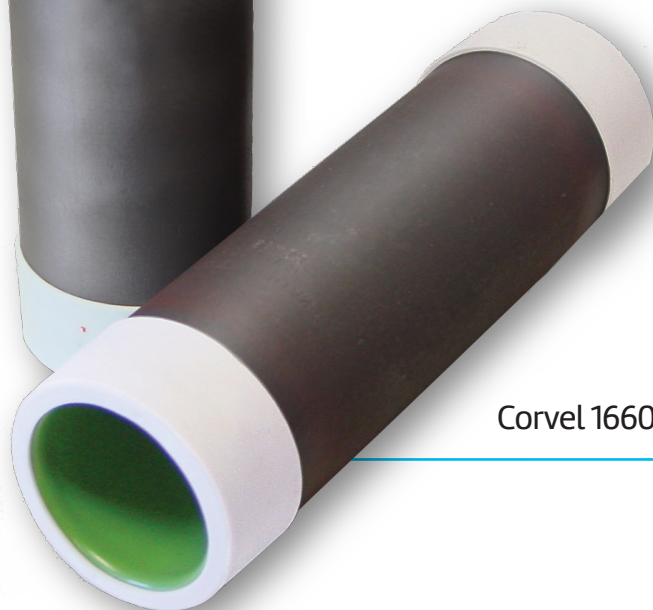

- **Labeling system** for easy identification
  - Scotchkote 134 (blue) – Corvel 1660 (green)
- **ASC logo** on threaded protection end caps
- **100% Traceability** – All products are stenciled and date stamped for full product traceability
- **ISO Approved** and Corvel 1660 coating applied using **NACE standards #1**
- **Strict adherence** to powder coatings manufacturers specifications
- **100% Warranty** on all Coated Products
- **Pricing readily available** on our website at [www.asc-es.com](http://www.asc-es.com)
- **ASC** brand named products
- **Other coatings** are available upon request i.e. Teflon and Powder Coatings

### The following products are in stock at Odessa and Irving, Texas:

- Forged Steel Fittings
- JB Smith Swages
- Bull Plugs & Oil Country Product
- Catawissa Hammer Unions
- Seamless Nipples
- CW Nipples
- Adapter Nipples
- Malleable & Cast Iron Fittings
- Gruvlok Fittings

Scotchkote 134

Corvel 1660

### **About ASC Engineered Solutions**

ASC Engineered Solutions is defined by quality—in its products, services and support. With more than 1,400 employees, the company's portfolio of precision-engineered piping support, valves and connections provides products to more than 4,000 customers across industries, such as mechanical, industrial, fire protection, oil and gas, and commercial and residential construction. Its portfolio of leading brands includes ABZ Valve®, AFCON®, Anvil®, Anvil EPS, Anvil Services, Basic-PSA, Beck®, Catawissa, Cooplet®, FlexHead®, FPPI®, Gruvlok®, J.B. Smith, Merit®, North Alabama Pipe, Quadrant®, SCI®, Sharpe®, SlideLOK®, SPF® and SprinkFLEX®. With headquarters in Commerce, CA, and Exeter, NH, ASC also has ISO 9001:2015 certified production facilities in PA, TN, IL, TX, AL, LA, KS, and RI.
