

# Anvil EPS

## Trusted Quality & Proven Performance

### ASC Engineered Solutions™ is proud to offer Anvil EPS brand pipe hangers and supports from general purpose to the most demanding applications.

With more than 160 years of extensive power and energy industry experience, ASC Engineered Solutions is a partner of choice for a reason – we provide the high quality products, on-site services and industry leading, expert engineering work to keep your facility running safely and productively.

#### Credentials

- ISO 9001:2015 certified facilities have the capacity and processes to service the most demanding requirements.
- ASME NS and NPT accredited to service the nuclear power industry. Our nuclear products are also registered in Canada.
- We are Navy fabrication and welding T9074-AD-GIB-010/1688, S9074-AR-GIB-010/278, and S9074-AQ-GIB-010/248 certified.
- Shock Qualifications to MIL-S-901C and/or MIL-H-15877 standards.
- DFAR compliant.
- When requested, can meet US domestic made product programs including:
  - Buy America
  - Buy American
  - American Iron and Steel Act (AIS)
  - Steel Products Procurement Act

Our comprehensive line of pipe supports are used across all industries:

- Nuclear
- DOD & DOE
- Aerospace
- Oil & Gas
- Mining
- Power Generation
- LNG
- Solar
- Biomass
- Marine

## Trusted Quality & Proven Performance

### Design & Engineering Services

- We provide custom designed pipe hangers or supports and will engineer, design, and fabricate to your specific requirements.
- Pipe clamps for larger loads, custom diameters, and in variety of alloy materials including: incoloy, grade 22, grade 91, and stainless steel.
- Constant supports that can accommodate over 30" of travel, adjustable loads, base type constant supports with low profiles.
- Variable springs designed to accommodate over 20" of travel with a spring canister of over 20'0" long.
- Hydraulic snubbers and struts designed for loads of over one million pounds, travel exceeding 20", ambient temperatures of -50°F.

### Field & Site Services

- We provide custom support and field services including installation facilitation, system walk-downs, and refurbishment of all pipe support components and systems including those used in power generation, petrochemical production, industrial markets, and more.
- Our on-site services can include hanger design, as found stress analysis, and outage planning.
