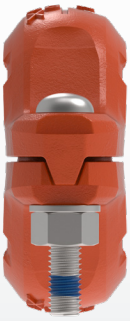
Figure C9-CL Rigid Couplings for Fire Protection

ASC Engineered Solutions



See it. Feel it. Know it.™

Install Confidence.

With a touch or a quick look, you will know this coupling is installed properly, even in the dark or tight spaces.

This innovative design will not require the housing pads to press together – only for the visual indicator to align.

Engineered gasket press-on feel ensures you know when it's properly positioned on the end of the pipe.

Simple, fast and dependable.

Learn more about **new Figure C9-CL from ASC.**
