FlexHead FH120 Rapid Installation Bracket

Fig. FH120

Patent Pending

The **FH120** bracket is **50% to 75% faster** to **install** compared to **traditional brackets**.

Listed with FlexHead, SuperFlex, and Ultra SprinkFlex Flexible Sprinkler Hoses.

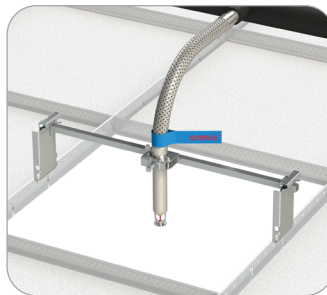

About the Product

Description

The FlexHead® FH120 Rapid Installation Bracket offers installers a cost-effective solution for connecting sprinklers to branch lines. The FH120 can be installed to suspended ceiling t-grids without specialty tools and hardware. The infinite adjustability of the bracket legs and hub allow for accurate placement of sprinklers in 16" to 24" ASTM C635 & C636 suspended ceiling, sidewall, and gypsum board ceiling applications in compliance with NFPA 13.

Applications

Suspended Ceilings per ASTM C635 & C636
Wood Framing – Gypsum or Dry Wall
Steel Framing – Gypsum or Dry Wall

Features & Benefits

- Bracket clamping design allows for easy installation to the suspended ceiling T-bar without power tools.
- The bracket length is adjustable to accommodate various ceiling sizes.
- Open hub design allows for simplified hose installation.
- The wide leg design prevents rotation and ensures stability.
- The bracket hub position is infinitely adjustable.
- Available tamper resistant options.
