

We make designing with ASC products easy.

Our BIM library files are available in:

- > Revit® families. (RFA files)
- > 2D & 3D CAD files. DWG, .STEP, .DXF, .PDF, etc? files)
- > Fabrication content components (JEZ, .ITM files)

Design smarter.
Build better.

Enhance your detailing easily and simply with the new **ASC ConnectED™ for Revit**. This free add-in, available for download online, is designed to make detailing with ASC products a snap.

We've streamlined ASC ConnectED™ for Revit to only include the functionalities you need and want – no filler, no confusion, no unnecessary complexity. Get the latest, up-to-date BIM content and product data from ASC's wide catalog, all available every time you open Revit.

Design in your favorite software with the industry-leading brands you love and a trusted supplier who's got your back.

Features

- > Increases daily team productivity and efficiency
- > Spooling made easy – Reduces time required to deliver drawings to fab shop
- > Accessible product knowledge to make informed decisions
- > Access the latest ASC BIM content with ease
- > Native Revit tool / light system text box requirements
- > No cost to install
- > *Coming soon*
 - Link to ASC ConnectED™-BOM for easy bill of material flips
 - Link to ASC ConnectED™-Submittal for Submittal package generation

Design Smarter, Build Better™ with ASC.

ASC supports your project lifecycle
from conception to construction.

Our suite of **ASC ConnectED™ tools**, services, and products are designed to drive project success by simplifying your construction lifecycle. We've made it easier than ever before for you to design, specify and create a bill of materials using ASC's products. We support your entire project lifecycle from conception to construction. When it comes time to build, our wide product selection makes it easy to work with a single, trusted supplier for every project.

One supplier, one digital destination, one happy you.

ASC Engineered Solutions connects high-quality products with advanced digital tools, service, and support. Our portfolio of leading brands is unmatched — time tested, manufactured to the highest standards, and trusted by those who build and maintain our world.

We offer the industry's most comprehensive portfolio of high-quality precision-engineered products, a unique and flexible mix of U.S. internationally sourced solutions from respected brands.

Industry leading brands:
