

Engineers and contractors, the latest way to handle your specifications is here. **ASC ConnectED™-Spec** allows engineers to quickly validate project specification accuracy by providing the latest ASC product data and suggesting the best choice. Answer your spec questions and review recommended product data to complete your spec.

Convert to ASC's products and save time and energy knowing your final spec is current. Stop wasting minutes or sometimes hours looking for information you need to make choices. You've got lots of other things to do —and we've got your back.

Contractors, have spec questions? Quickly review a specification and understand where ASC products can support your building plan with ASC ConnectED-Spec. Receive personal BIM content a suggestions and product data information to build your submittal.

Features

- > First-of-its-kind, MEP AI powered Specification tool created by ASC experts
- > Access product data in real time
- > Improve your specification by converting to the complete ASC product line
- > Share the latest up-to-date information with collaborators
- > No cost to use / No download required
- > **Coming soon** – Link to ASC ConnectED™ –Submittal for submittal package generation

Design smarter.
Build better.

Design Smarter, Build Better™ with ASC.

ASC supports your project lifecycle
from conception to construction.

Our suite of **ASC ConnectED™ tools**, services, and products are designed to drive project success by simplifying your construction lifecycle. We've made it easier than ever before for you to design, specify and create a bill of materials using ASC's products. We support your entire project lifecycle from conception to construction. When it comes time to build, our wide product selection makes it easy to work with a single, trusted supplier for every project.

One supplier, one digital destination, one happy you.

ASC Engineered Solutions connects high-quality products with advanced digital tools, service, and support. Our portfolio of leading brands is unmatched — time tested, manufactured to the highest standards, and trusted by those who build and maintain our world.

We offer the industry's most comprehensive portfolio of high-quality precision-engineered products, a unique and flexible mix of U.S. internationally sourced solutions from respected brands.

Industry leading brands:

ABZ Valve®	Basic-PSA	FPPI®	NAP®	SPF®
AFCON®	Beck®	Gruvlok®	Quadrant®	SprinkFLEX®
Anvil®	Catawissa™	J.B. Smith	SCI®	Trenton Pipe
